

# Web Engineering

## Exercise 1.1

## Exercise 1.1 - Scenario

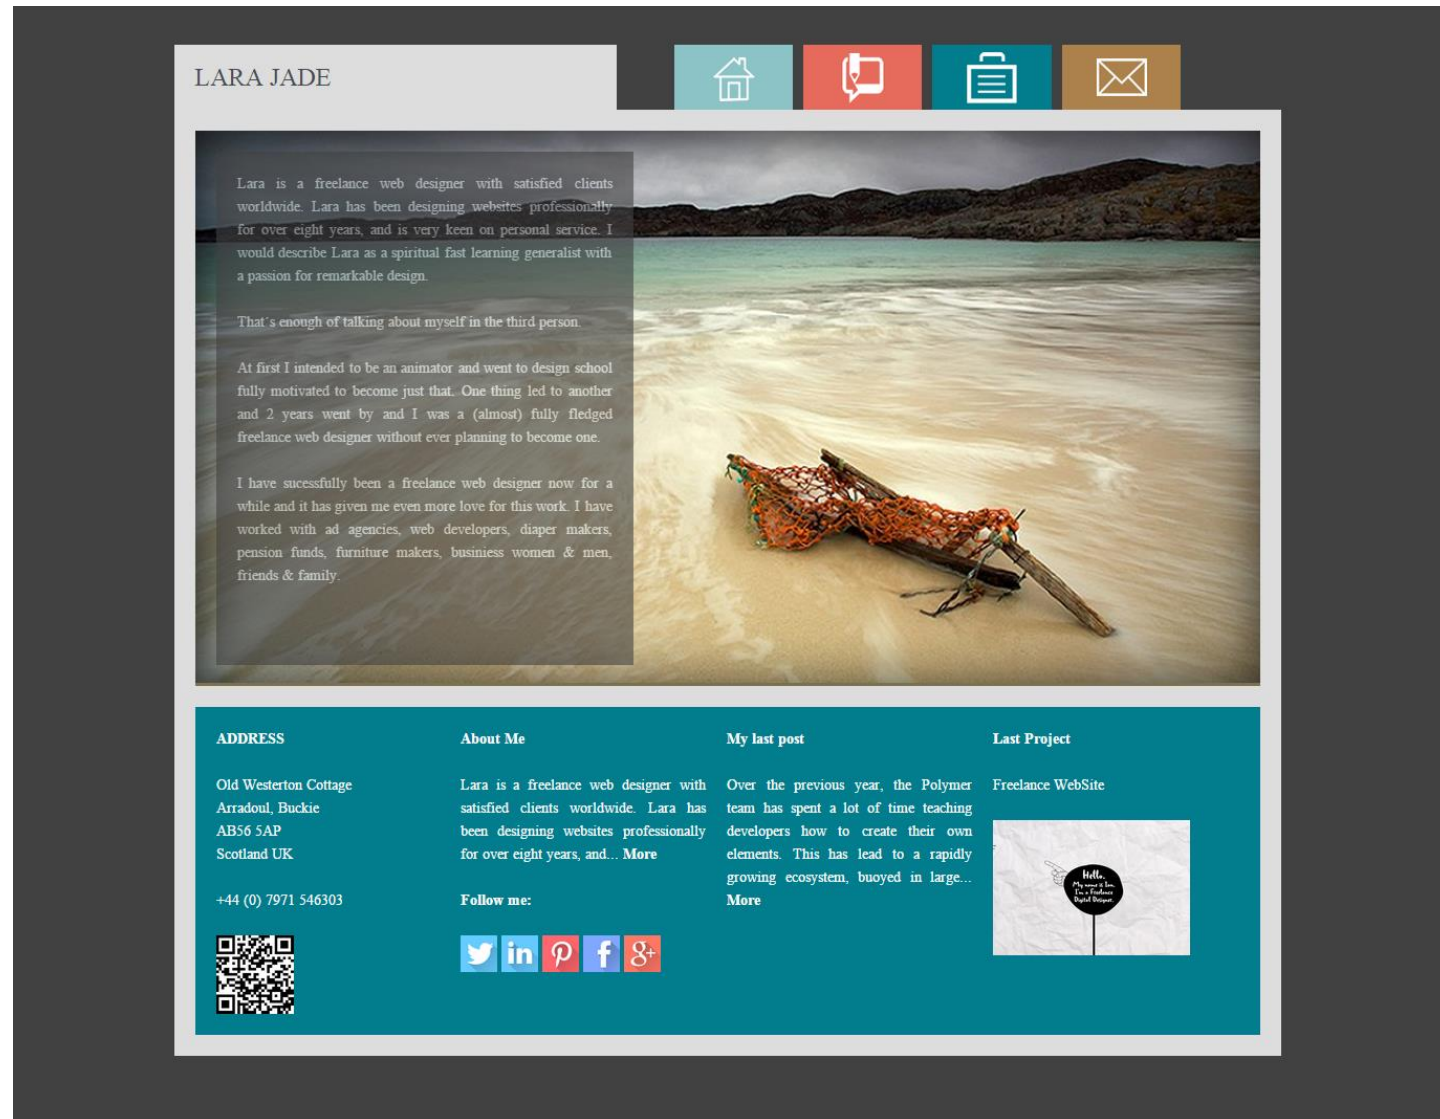

- In some “years” from now, you finally finish your exams
- The entire job market is waiting for you...
  - Or maybe not
- Your CV is not powerful as you are
- Brilliant Idea!
- You need something that shows up your skills
  - something funny, cool and immediate
- A portfolio website!

## Exercise 1.1 - Screenshots

- First step is to create the design
- After some time you come up with the following mockups:

# Exercise 1.1 – Screenshots

## index.html

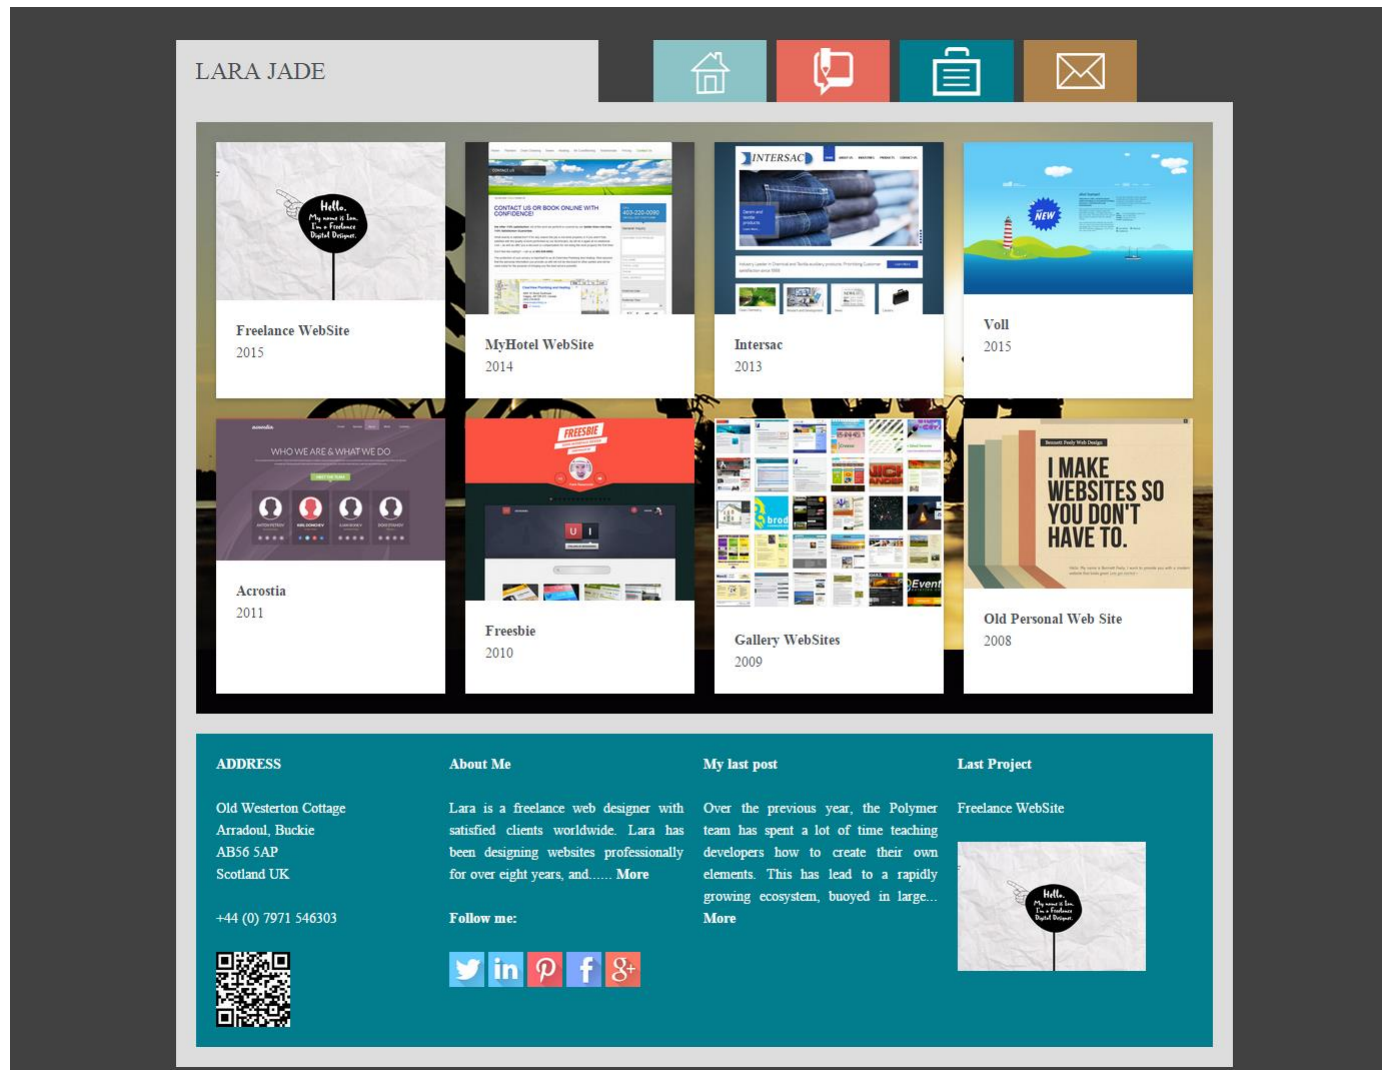

# Exercise 1.1 – Screenshots

## blog.html

# Exercise 1.1 – Screenshots portfolio.html

# Exercise 1.1 – Screenshots

## contactme.html

Freelance WebSite  

## Exercise 1.1 - Tasks

- You are pretty happy with the result, but now the next step is to implement it!
- Use CSS to design the layout of
  - index.html
  - blog.html, contactme.html and portfolio.html
- The HTML skeleton is available on the group web site as well as the ex. description and the screenshots
- Please follow the design as much as possible!
  - Colors and other SMALL differences are allowed
